

APPLICATION FOR THE INSTALLATION OF
RESIDENTIAL
ON-STREET DISABLED PARKING SIGNAGE

The city of Aurora Parking & Mobility Services program installs disabled parking signs in the public right-of-way in residential neighborhoods and in commercial business districts to provide greater access and mobility opportunities for individuals with disability impairments. On-street disabled parking signage requests are generally approved if *ALL* of the following program terms, conditions, and criteria are met:

Program Policy & Requirements:

Request is by a resident living at the household located on a public street within Aurora city limits

Applicant must be the property owner (or a letter of consent from the property owner is required)

Applicant DOES NOT have accessible residential off-street parking accommodations

Applicants with household driveways, garages, carports, parking pads, or other applicable off-street parking resources, including alley accessible driveways or garages, are **not eligible** for on-street disabled parking accommodations. *This program is for residents who do not have off-street parking options*

There is a vehicle registered to someone living at the residence where the disabled signage is being requested

There is a valid licensed driver residing at the residence where the disabled signage is being requested

The requested disabled space on the street shall be used as the applicants primary household parking space

Requesting/obtaining an on-street disabled parking space of any other purposes or use is prohibited

The disabled space must be used for primary vehicle parking storage and not for loading zone purposes

The qualifying disability impairment is permanent or a long-term condition

Temporary or short-term disability (i.e., less than 24-months) placard privileges do not qualify

All provided documents have the applicant address of where the signage is being requested

All required documentation is valid and provided in entirety (see application Document Checklist on reverse)

Program, Terms & Conditions:

Requests to install on-street disability parking signage to provide access for RTD Access-A-Ride will be denied

- RTD Access-A-Ride vehicles do not have disabled parking privileges

Only one (1) designated on-street disabled parking space (approx. 20-foot) per household

Disability parking stalls are installed in front of, or in proximity to, the applicant's residence

- Park Aurora staff shall make the final determination on exactly where a disabled stall/signs are located

Existing on-street parking or regulatory restrictions that prohibit parking in front of or near the applicant's residence cannot/will not be removed or modified to accommodate a disabled parking space request

Designated on-street disabled parking stalls are *not* private parking spaces assigned to an applicant

- Disabled parking spaces *are always* accessible for public use, on a first-come, first-served basis, by *anyone* with a valid state-issued disabled placard/plate

The city may remove an on-street disabled parking space, at any time, to improve traffic and parking operations, for safety concerns, for any stall misuse/non-use, failure to renew, or to accommodate temporary conditions

Disabled parking spaces *must* be utilized by the applicant, for parking, on a regular and consistent basis. Non-use or seldom use of an on-street disabled parking stall may result in the removal of the designated space. Non-use and/or misuse shall be determined by the Manager of Parking & Mobility Services, at his/her sole discretion

Disabled parking spaces may be subject to yearly renew, requiring the submission and approval of a new application and supporting documents

All parking rules, regulations, and posted restrictions must be followed while parked in a disabled parking space

Return the completed application with all required document copies to:

Park Aurora, 15151 East Alameda Parkway,
Suite 3200, Aurora, CO 80012 or, email to:
